

# BriteBikes - How they work

## 1. Reserve (Not required)

### Booking a bike

Find and reserve any of our bikes in one of three ways! 1) Use the Social Bicycles mobile app, [app.socialbicycles.com](http://app.socialbicycles.com) in your browser to reserve, 2) use a bike's keypad without a reservation, or 3) just walk up to any bike with your BR/Eco Clipper card and follow the Release instructions below.

## 2. Release - Unlocking Process

Tap the green check mark button on the keypad to wake up the bike. Hold your Clipper Card on the keypad as shown. Slowly drag it toward you. If read, it will say “connecting” as shown below. Enter your four digit PIN to unlock the bike when prompted.

Want to stop for coffee? Press the “HOLD” button first then slide the lock into the two holes in the rack of the bike, ideally around a rack. When you return just enter your PIN to unlock and ride.

## 3. Ride - Enjoy your time!

Hop on a BriteBike and enjoy the freedom of the open road. When riding, remember to follow the rules of the road shown on the BriteBikes website [HERE](#).

## 4. Return - It's easy!

To end your trip just lock the bike to any Bishop Ranch bike rack using your PIN and release it for others to use. The screen will say “Thank You” when locked. Try tugging the lock to ensure its locked correctly if the screen tells you it's not locked.
